

In the Specification:

Please add the following text to the end of the paragraph at line 14, page 12 after the sentence “The LEDs 118 are mounted in conventional receptacles (not shown) that facilitate their operation.”

The LEDs 118 can be embedded in the shapable housing formed of an insulating material 107 to enhance heat concentration over the treatment area, or embedded in the shapable housing formed of a heat conductive material 109 to dissipate heat over the treatment area.
